PUBLIC NOTICE

Termination of Mandatory State of Water Supply Conservation

January 19, 2017

The Director of Public Works hereby terminates the Mandatory State of Water Supply Conservation, effective January 19, 2017, for all customers connected to the municipal water system. This action is the result of the recent change in drought status to our area, the return of ground water to normal levels, and consultation with officials in the town of Ashland regarding the water levels in the Hopkinton Reservoir.

This action is governed by Hopkinton's Town Bylaws, Chapter 199, Article II, Section 199-8: Restricted Water Uses.

The Department of Public Works appreciates your understanding and cooperation as we worked together to overcome the challenges of this past summer's drought.

Sincerely,
John K. Westerling
Director of Public Works
